

Farmyard Friends Corner

Bookmarks

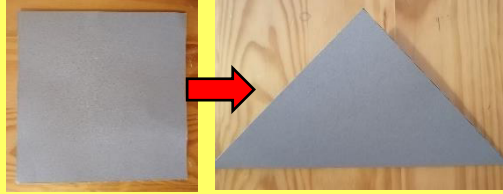

You will need:

- Origami or coloured paper (15cm x 15cm)
- White and coloured card
- Glue and scissors
- A 1p coin as a template for the eyes, or googly eyes
- A pen and pencil

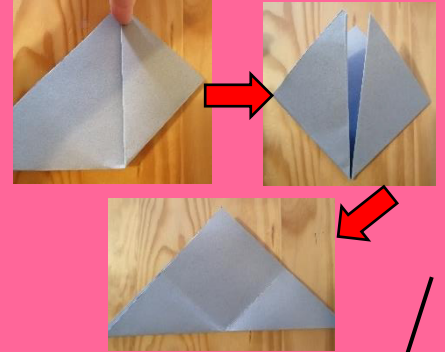

Step 1:

- Take your piece of origami paper and turn it over
- Fold the two corners together so it looks a bit like a hat

Step 2:

- Fold the right-hand corner up so it touches the tip of the triangle, and do the same with the other side to form a small square
- Open it out again so you can clearly see the fold lines

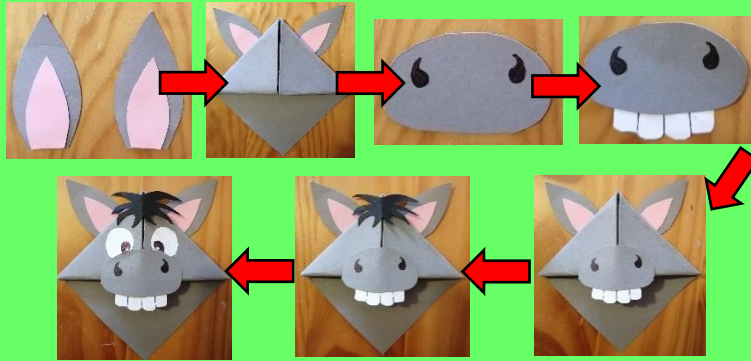

Step 4: Decorate your bookmark!

First, cut out two ears from grey card and two smaller pink pieces to be the inside of the donkey's ears. Stick these on!

Next, cut out an oval shape for the nose and draw on two nostrils. Then, from white paper/card, create a set of teeth and then attach these to the nose. Stick this to your donkey!

From black card, cut out a spidery shape for the donkey's mane and glue this to the head. Lastly, cut out two eyes from white card and draw on two pupils. Your farmyard friend is now complete!

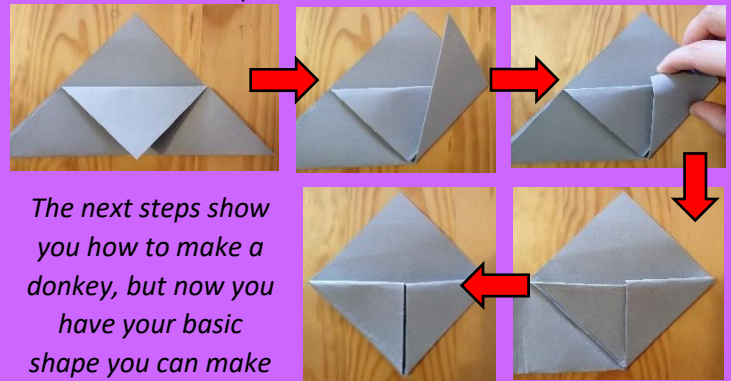

Step 3:

Fold the top of the triangle down so it sits in the fold lines you've already made

Fold the right-hand side of the triangle up so it touches the top tip of the original shape and creates a new triangle

Then with your fingers, fold down the top of this new triangle and tuck in underneath the bottom section

Repeat with the other side – now you have your animal shape!

The next steps show you how to make a donkey, but now you have your basic shape you can make anything you'd like!

You are now done! You can make lots of other farmyard friends, including a pig, sheep, cow, and chick!
